

Press release Wire 2018 ROLF SCHLICHT GmbH - new company management

ROLF SCHLICHT GmbH is distributor of technology for plastic, rubber and cable industry, offering worldwide machines, service and support by phone/e-mail. The company is internationally known for their own product lines **RS POWDERTECH** type RSC powder coating machines for the cable and rubber industry and **RS MULTICUT** cutting machines.

ROLF SCHLICHT GmbH is **acting successfully in the market for almost 60 years** and is **the original manufacturer** for many special powder coating solutions, like graphite polishing stations for instance. **RS POWDERTECH** powder coating machines, type RSC, are designed for powdering with talc. Since more than 10 years there is also very good experience in powder coating with graphite or stearates. Consequently **RS POWDERTECH** powder coating machines type RSC provide complete solutions for the powder coating process.

Since the end of 2016 the company has a new management. After the sale of the company to Bochmann Holding GmbH the managing partners, Mr. Lars Bochmann and Mr. Heiko Heynen, took over the management.

The company, established in 1959, was managed since 1979 by the two sons of the founder and end of 2016 handed over to the third generation. After one year advisory support Michael Schlicht retired. Joachim Schlicht, with his longstanding experience in powder coating, is still giving support, if required. Using the advice of the original managing partners the takeover has been completed in 2017.

In November 2017 ROLF SCHLICHT GmbH moved to new business premises in Reinfeld together with USD Gebrauchtmachines für Gummi und Kunststoff GmbH and M+R Multitronik GmbH, both of them are part of the Bochmann Holding GmbH. The new location combines all companies in one domicile and offers further growth potential for the future.

This relocation will provide a clear signal for the expansion of the business. ROLF SCHLICHT GmbH will continue to offer a wide product range of high quality and will further push the innovations together with its partners.

Following the quote of the Greek philosopher Heraklit "The only constant in the universe is change", program, service and delivery reliability are supposed to be improved and expanded continuously.
